

New from North American Arms "The Earl"

"The Earl" is a five-shot, single action 1860's-styled mini-revolver chambered in .22 Magnum.

Named after the NAA gunsmith who originally developed the product, with its *faux* loading lever (which secures the cylinder pin), "The Earl" resembles a 150 year old percussion revolver then common in the Old West.

With its heavy octagonal barrel, top strap channel and bead front sight, "The Earl" could become your favorite plinker (pray for the snake, rodent or tin can that dares cross your path!).

With available flap holster of belt-grade leather, strap on "The Earl" for an imaginative trip back to a simpler time.

As another example of NAA's craftsmanship and attention to detail - the closer you look, the better we look.
